

ETN MONTHLY NEWS SUMMARY

NOVEMBER 2021

IN THIS ISSUE:

- President's letter to ETN members
- Calendar for 2022
- AGM & Workshop
- Supercritical CO₂ Working Group
- Hydrogen Working Group
- Educational courses
- Upcoming meetings and events

PRESIDENT'S LETTER TO ETN MEMBERS

In the President's annual message to ETN members, our President Pedro Lopez and Managing Director Christer Björkqvist highlighted some of ETN's achievements this year and announced our plans for 2022. You can read the full letter [here](#) (login required).

CALENDAR FOR 2022

The preliminary version of ETN's calendar for 2022 has been published so that you can already add some of the planned meetings and events to your agenda. More meetings will be added once the dates have been confirmed. Check out the calendar [here](#).

AGM & WORKSHOP

ETN's Annual General Meeting (AGM) & Workshop will take place in Brussels, Belgium, on 29-30 March 2022 – make sure to pencil in the date! The AGM will be held in a hybrid format on 29 March, and the Workshop will be organised as a physical meeting on the following day. This will be an important event, as the new ETN Board for 2022-2024 will be elected during the AGM. The call for Board election candidates will be launched later this week – more details will be circulated shortly.

SUPERCRITICAL CO₂ WORKING GROUP

ETN's Supercritical CO₂ Working Group covers the whole value chain of the sCO₂ power cycle use and aims to act as a platform for ongoing global demo projects. The Working Group launched a review survey in November 2021 to identify the needs and recommendations of our stakeholders to support the uptake of sCO₂ technology and its associated market requirements. The outcome of this initiative will be shared in an aggregated form and will be used to better address the needs of the sCO₂ community. The survey results will also facilitate efficient communication with the European policymakers. If you would like to help us to understand which areas the WG should focus on and provide some input, please download the survey [here](#) and send it to [Jitka Špolcová](#) before 15 December 2021.

HYDROGEN WORKING GROUP

The next teleconference meeting of ETN's Hydrogen Working Group will be held on 10 January 2022. Meeting invitation has been sent to the Hydrogen WG members. If you are not following this Working Group yet but would like to join the group and attend the next meeting, please [contact us](#).

EDUCATIONAL COURSES

ETN is collecting information about technical gas turbine courses available, given by our members, to promote and share the knowledge and experience of our community. You can find a list of scheduled courses [here](#). If your organisation would like to list some courses on our website, please [contact us](#) for more details.

UPCOMING MEETINGS AND EVENTS

Virtual ETN meetings and events:

- ETN Board meeting: 30 November – 1 December 2021
- Hydrogen Working Group meeting: 10 January 2022

ETN Monthly News Summary is distributed internally to ETN members at the end of each month. ETN Quarterly Newsletter is circulated to members and external contacts four times a year. The next edition will be January-March 2022. You can find all the previous issues of both publications on www.etn.global/news-events
